

# MULTIRING BAG STAND

By **VACMASTER®**

The **VACMASTER® Multi-Ring Bag Stand** makes filling several bags at once quick and easy! The stand allows you to independently fill bags without assistance. When working with liquids such as soups or marinades, it can be difficult to keep the sealing area of the bag clean and dry, which can prevent the bag from sealing properly. The stand is built to last with heavy duty stainless steel construction and is designed to accept 8", 10" and 12" bag sizes (pint, quart, and gallon).

## FEATURES

- Stainless steel construction
- Keeps the sealing area clean for reliable seals
- Designed to hold pint, quart and gallon bags
- Holds bags and pouches for easy filling
