

VACMASTER® PRO380

The **VACMASTER® PRO380** offers a more complete and versatile professional design. With a stainless steel exterior and powerful dual piston pump, this machine is durable enough to handle more frequent use. This machine is perfect for serious hunters and fishermen. In addition, the PRO380 features roll storage and a unique transparent lid for easy bag placement. The user friendly digital display offers rapid marinating options as well as pulse vacuuming for more delicate items. The new longer 16" seal bar, not only allows you to vacuum package wider bags, but also 2 bags at once! The PRO380 works with all VacMaster® accessories.

FEATURES

- Pre-set vacuum settings for simple operation
- 16" seal bar with 5mm wire
