

VACMASTER® VP731

The **VACMASTER® VP731** Double Chamber machine is designed for efficient volume production output while keeping your investment low. Flat deck design is constructed of stainless steel, features a microprocessor control panel and is powered by a Busch vacuum pump. The fully skirted stainless steel panels add to the machine's clean lines and promote easy sanitation. The VP731 features two 31" seal bars (in each chamber) with 10mm wide seals for added strength and reliability. The seal bar utilizes two heated seal wires for consistent seals every time.

FEATURES

- Stainless steel construction
- Programmable digital control panel, stores up to 20 programs
- Busch vacuum pump
- High production flat deck design
- Bladder activated sealing
- Oil change indicator
- One year warranty

IDEAL FOR

- Large volume processors
- Supermarkets
- HRI
- Labs

The Professional Way to Prep, Cook, Package!
